

The Auden Concealment Trolley is a Mortuary product that ensures the deceased is moved with dignity and respect. The trolley benefits from two adjustable cot sides to allow quick and easy access to both sides of the trolley to assist in loading and unloading. The trolley is quiet in motion and extremely manoeuvrable due to its swivel castors.

The swivel castors have a unique pedal built in allowing both wheels on each end to be braked when the pedal is engaged on one side only.

Wheel Setup - Full Swivel, Directional-Lock and Total Brake. All are applied from the colour coded foot pedal.

The Concealment Trolley is battery powered and mains chargeable and is controlled from a mounted foot controller.

The product is finished in an Antibacterial powder coating with stainless steel cot sides.
