

Introducing the Contour Flex + Dual, a groundbreaking advancement in removal trolley technology! This exceptional trolley boasts a one-of-a-kind front and rear leg design, setting a new standard for stability and safety in removal operations. Our innovative design ensures that the load remains secure and protected throughout the entire journey.

The independent rear leg system is a true game-changer. It meticulously holds the weight until the trolley is safely further into the vehicle, eliminating the risk of sudden movements or accidents. To further enhance stability, we've extended the wheelbase and widened the rear track, providing you with the utmost confidence in the security of your load during transit.

Customisation is key with the Contour Flex + Dual. You have the choice between two fixed wheels or multi-directional wheels, allowing you to tailor the trolley to your exact requirements. Its user-friendly features make it suitable for a wide range of removal scenarios. Plus, it's built to withstand heavy usage, ensuring it will serve you reliably for years to come.

Elevate your removal experience today with the innovative Contour Flex + Dual trolley. With its unique features and unbeatable stability, it represents the ultimate solution for all your removal needs. Don't settle for less when you can have the best!

Specification
