

Introducing the Multilevel ISP Pro, a cutting-edge and flexible system designed to transport first call and stair stretchers of various sizes. With its newly crafted lightweight and highly manoeuvrable design, it not only boasts striking aesthetics but also introduces innovative features that redefine transportation solutions.

The stretcher seat system is equipped with folding blocks, providing versatility and adaptability for a range of scenarios. Whether it's daily operations as a two-part trolley and stretcher system or utilising the convenient "roll-in, roll-out" feature to use it upright in lifts or tight spaces, the Multilevel ISP Pro excels in delivering efficiency, manoeuvrability, and exceptional design.
