

The Super XLS is a high strength easy to operate removal trolley with an industry leading load capacity of 475 Kgs.

The single height trolley benefits from our independent leg operation.

It also has our folding sidearms which when used significantly increases the surface area to securely contain body mass. This trolley delivers both safety and practicality.

Furthermore, the Super XLS offers the convenience of our optional “easy-out wheel” system, eliminating the need for lifting when exiting your vehicle.
